DR. GILBERT T. SADSAD

Regional Director
Negros Island Region
Dumaguete City

Dear Dr. Sadsad:

Greetings from Resources for the Blind, Inc.

In our goal of helping children with visual impairment reach their full potential, we are confronted with the challenge of providing sustainable eye care services, particularly to children with low vision enrolled in different Special Education Centers/Classes. These eye care services include regular clinical visual assessments, eye surgery and rehabilitation among others. For this reason, we will be implementing the second phase of our "Primary Eye Care" program which aims to link children with visual impairment to clinicians such as ophthalmologists, optometrists and therapists for immediate and appropriate medical attention.

As an integral part of this program, our office plans to hold eye screening specifically to the identified Special Education centers/classes in the region. Hence, we would like to ask permission from your good office to allow our coordinator, Mr. Ryan Operario and the team to visit these schools and conduct the activity. He will also coordinate with the schools' respective administrators and SPED teachers for the schedule of visit.

Your positive response to this request is highly regarded. Thank you very much.

Sincerely yours,

JOY C. FEDELIS

OIC, RBI-Cebu Branch
