01 March 2016

**Dir. Juliet A. Jeruta**  
Director III  
OIC-Office of the Regional Director  
Department of Education Regional Office VII  
Sudlon, Lahug, Cebu City

Dear Dir. Jeruta,

The teaching of health concepts and common diseases that afflict the Filipinos, young and old, have been given due emphasis by the Department of Health and the Department of Education-Health and Nutrition, with the belief that fastering awareness among the students at an early stage will ultimately improve the health condition of the people in the community. It has been observed that the number of newly registered cases of leprosy has not gone down significantly, an indicator that there are still a good number of undetected and untreated leprosy patients in some areas. It has long been established that the cornerstone of leprosy control is early diagnosis and treatment.

The DOH and DepEd-HNC, in cooperation with the Culion Foundation Inc, revised the module on "Integration of Leprosy Prevention and Control in K1 to K12 Curriculum" which shall be integrated in the Grades III, IV, and VI Science and Health subject using the Teacher-Child Parent Approach. This allows the integration of important concepts in the pupils' lessons, which they can relay to their parents.

In view of the above, we are inviting the technical writers representing all divisions of DepEd Region VII to attend the "Consultative Meeting for the Final output of the Leprosy Module for K1 to K12 Curriculum" on 17-18 March 2016 at Sarrosa International Hotel, Cebu City.

Food, venue and accommodation will be borne DOH-RO7 Regular Appropriation National Leprosy Control Program Funds while transportation, per diems and other incidental expenses will be borne by the sending agency. Activity starts on 17 March 2016 at 12nn with lunch while check-in time will be at 2pm on the same day and check-out will be on 18 March 2016 at 12 noon. For inquiry please call/send a message to Ms. Mary Farasel B. Abaquita at 254-4387/09255986584.

Thank you very much to your continuing support to this collaborative effort to control leprosy and other neglected tropical diseases.

Very truly yours,

**Jaime S. Bernadas, MD, MGM, CESO III**  
Director IV
