Prepare students for  
success in the classroom  
and their career.

A Microsoft Imagine Academy subscription and any of the Microsoft Certification packs provide excellent learning resources for educators and students across your entire institution.

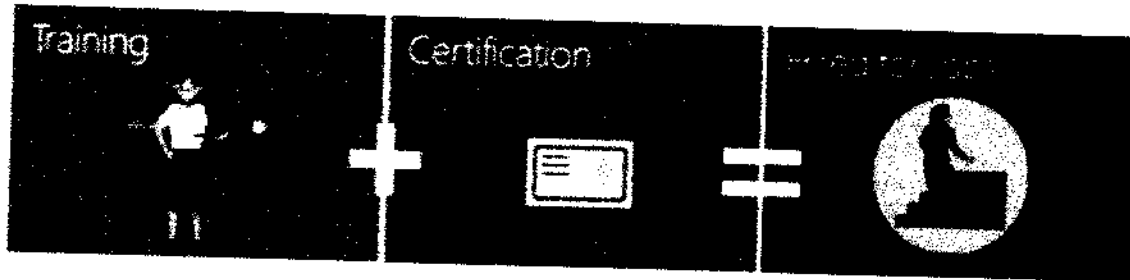

Microsoft Imagine Academy and Certification can help you:

- Reduce cost of curriculum
- Save educators' time with ready to teach curriculum
- Enable educators to teach on the latest technology
- Professional Development resources for educators
- Prepare individuals for globally recognized Microsoft Certifications
- Provide students with employability skills for rewarding careers

Microsoft Imagine Academy was developed to provide institutions with the tools, resources and curriculum to teach students the IT skills they'll need for college and careers in today's technology centered job market. Areas of study include Computer Science, IT Infrastructure, and Productivity tools

and software. The program also provides the technology professional development resources that educators need to be successful in the classroom.

Microsoft Certifications are the IT industry's most respected endorsement. Certification helps students stand out from their peers and prepares them for rewarding careers in today's cloud computing workplace. Microsoft Certifications validate a broad set of skills on the latest Microsoft technologies

**Other Agenda Covers.**
